 One in box. Wt. box 1 1/2 lbs.

STANLEY

Knuckle Joint—Adjustable Throat

For coarse or fine work. With patented knuckle joint lever. Knuckle joint nickeled. Length 7 inches. 1 5/8 inch cutter.

Each **F3867G (65) X5D27** \$7.90
 One in box. Wt. box 1 1/2 lbs.

IRON BLOCK PLANES

STANLEY

In the low-angle planes the cutter rests on its seat at an angle of only 12 degrees. This angle permits of great ease in working across the grain on hard woods.

All cutters are made of high grade steel and are adjustable endwise by means of the adjusting wheel at the rear of the plane.

Adjustable Throat

For coarse or fine work. Length 6 inches. 1 3/8 inch cutter. Japanned trim.

Each **F3866G (60 1/2) X4D16★** \$6.25
 One in box. Wt. box 1 1/4 lbs.

With Adjustable Throat

Length 6 inches. 1 3/8 inch cutter. Japanned trimmings.

Each **F3853G (9 1/2) X4D16** \$6.25
 Wt. box 1 1/2 lbs.

Without Adjustable Throat

Each **F3852G (9 1/4) X3D16** \$4.75
 One in box. Wt. box 1 1/2 lbs.

Adjustable

With rosewood knob on front. In many ways better adapted for average use than any of the cheaper block planes made. It is ground on both bottom and sides. The cutter is made of high grade steel, is fastened by a lever and cam, and is adjustable endwise by a screw adjustment operated from the rear of the plane. Length 7 inches. 1 5/8 inch cutter.

Each **F3893G (220) X2D65★** \$3.98
 One in box. Wt. box 1 3/8 lbs.

Non-Adjustable

Polished hardwood knob. Both the bottoms and sides are ground. Japanned trimmings. The most popular of all non-adjustable block planes. Length 7 inches. 1 5/8 inch Cutter.

Each **F3883G (110) X2D17★** \$3.26
 One in box. Wt. box 3/8 lb.

IRON BLOCK PLANES

STANLEY

Bottom and sides milled and ground. Handy grip. Fully adjustable. High grade steel cutter. Nickel plated lever cap and trim. Knuckle joint lever cap snaps into position and holds cutter firmly at a 20° angle. Brass adjusting nut and finger rest.

Length 6 inches. Width of cutter 1 5/8 inches.

Each **F3858G** (18 1/4) **X4D16** ▲ Each \$6.24

One in box. Wt. box 1 1/4 lbs.

SCRUB PLANES

STANLEY

Quickly planes down to a rough dimension any board that is too wide to conveniently rip with a hand saw, an operation that is sometimes called "hogging". This is made possible by reason of the peculiar shape of the extra heavy cutter, the cutting edge of which is rounded instead of square. Japanned cast iron. Beechwood handle and knob. Length 9 1/2 inches, size of cutter 1 1/4 inches.

F3861G	(40)	X5D07			▲ Each \$7.60
--------	------	-------	--	--	---------------

One in box. Wt. box 2 1/8 lbs.

JOINTER OR PLANE GAUGES

STANLEY—Adjustable

This jointer gauge is designed for use in connection with all sizes of iron jack or jointer planes. Enables the workmen to plane bevels of any angle between 30 and 90° or to square up the edges of boards with extreme accuracy. The tool is so constructed that it may be attached to either side of the plane, making it equally adaptable for right or left hand work. A hole is bored in each end of the gauge so that a wood face of any desired size may be attached, thus providing a bearing surface longer or wider than the face of the gauge itself. Made of malleable iron, nickel plated. Length 11 inches. Plain nickel plated gauge plate, machined planer surface. Rosewood knob forms a convenient grip and can be placed at either end of gauge.

F4412G	(386)	X6D20			▲ Each \$9.00
One in box. Wt. box 2 1/4 lbs.					

RABBIT AND FILLETSTER PLANES

STANLEY

Duplex

This plane has two seats for the cutter, one for regular work and the other where a bull-nose is required. It has a spur and a removable depth gauge. The adjustable fence can be used on either side and slides under the bottom, regulating the width of cut. To work same as a rabbit plane, remove fence and arms. Length 8 1/2 inches. Cast iron handles, japanned. 1 1/2 inch cutter.

F3872G	(78)	X5D47			▲ Each \$8.20
--------	------	-------	--	--	---------------

One in box. Wt. box 3 3/8 lbs.

RABBIT PLANES

STANLEY

These planes will lie perfectly flat on either side and can be used equally as well with right or left hand while planing into corners or up against perpendicular surfaces.

Length 8 inches. Cast iron handle, japanned. Fitted with spur which permits the plane being used for working across the grain, also fitted with a detachable depth gauge.

F3871G (75) X1D60★.....\$2.40
One in box. Wt. box ⅝ lb

ROUTER PLANES

STANLEY

Open Throat

An improved design, giving more freedom for chips and a better view of the work and cutter. Has an attachment for regulating the thickness of the chip and a second attachment for closing the throat for use on narrow surfaces. The bottom is designed so that an extra wooden bottom of any size desired can be screwed on enabling the user to router on larger openings. Cutters have screw adjustment and can be held as shown in illustration or on the back of the cutter post for bull nose work. Nickel plated cast iron. Maple knobs. Length 7½ inches. Furnished with one each ¼ and ½-inch cutters and V or smoothing cutters.

Each ▲ Each
F3869G (71) X7D47.....\$11.20
One in box. Wt. box 2⅝ lbs.

RAZOR BLADE PLANES

LITTLE GIANT

Always sharp. Uses a double edged razor blade.

Adjusts instantly for desired depth of cut. For model wood work. Planing unevenly matched boards to a smooth flat surface, for fitting curves and beveling linoleum, plastic and rubber tile and many other uses.

For jobs other planes can't do—works on long curves, flat surfaces and short curves.

One on a 4⅜x5¼ inch card with instructions. Card punched at top for use as hanging display rack and by folding out tab at bottom it stands for display on counters and shelves.

KEEN KUTTER ALLOY PUNCH AND CHISEL SILENT SALESMAN

Designed for suggested selling and quick turn-over this **KEEN KUTTER** silent salesman contains 36 tools of 17 popular sizes and types of **KEEN KUTTER** alloy punches and cold chisels. One each of the 17 is displayed in the attractive compact red hardwood stand which measures only 6 1/8 x 8 inches and 1 7/8 inches high. The back of the display provides space for retail pricing and tool identification.

KEEN KUTTER alloy punches and chisels are made of special alloy tool steel with cutting edges and points tempered to withstand full hammer blows. They are attractively finished with alternate polished and red baked enamel sides.

STAR ★ DENOTES BEST SELLER

KEEN KUTTER ALLOY PUNCH AND CHISEL SILENT SALESMAN

Designed for suggested selling and quick turn-over this **KEEN KUTTER** silent salesman contains 36 tools of 17 popular sizes and types of **KEEN KUTTER** alloy punches and cold chisels. One each of the 17 is displayed in the attractive compact red hardwood stand which measures only 6 1/8 x 8 inches and 1 7/8 inches high. The back of the display provides space for retail pricing and tool identification.

KEEN KUTTER alloy punches and chisels are made of special alloy tool steel with cutting edges and points tempered to withstand full hammer blows. They are attractively finished with alternate polished and red baked enamel sides.

REED AND PRINCE

For Reed and Prince Recessed Head Screws

Blade of high grade alloy steel. The ferrules are made from cold rolled steel and the shank of the driver is pinched or eared so as to assure proper assembly and eliminates possibility of the blade turning in handle. Fluted white birch handles are natural finish with lacquer coating.

Each	Lgth. Blade ins.	Lgth. Blade ins.	Wt. Box, lbs.	Each

HOLD-E-ZEE

Blades are chromium vanadium steel, hexagon in shape, tempered the entire length for toughness and springiness. Hand ground bits. Patented spring action gripper instantly holds, starts and sets up any size screw in unhandy places. Special spring steel fingers hold tightly with instant release. Gripper automatically slides out of the way, giving full use as a regular screw driver. Unbreakable handle is transparent amber material, giving perfect insulation. Hexagon shape makes for sure grip with greasy or sweaty hands. Assortment contains 17 only screw drivers, 7 of which are mounted on attractive easel display card.
